## Directions:

1. Separate the cards into three piles:
a. Value is $<1$ (less than 1)
b. Value is $=1$ (equal to 1 )
c. Value is $>1$ (more than 1)
2. Then, separate those piles into smaller piles of the same values (all 1 s in a pile, all 0.75 s in a pile, etc.)
3. Then, move those piles so they're in order from the least to greatest value
Answers on back.

| 0.25 | $\frac{1}{4}$ | $25 \%$ | $\circlearrowleft$ | one <br> fourth | 0.250 | $\frac{25}{100}$ | $1 \div 4$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 0.5 | $\frac{1}{2}$ | $50 \%$ | $\bigcirc$ | one <br> half | 0.50 | $\frac{5}{10}$ | $1 \div 2$ |
| 0.75 | $\frac{3}{4}$ | $75 \%$ | $\bigcirc$ | three <br> fourths | 0.750 | $\frac{75}{100}$ | $3 \div 4$ |

Did you do it right? (directions on other side)
To check, flip over the cards.
1.
a. Cards $<1$ (less than 1) have a letter $\mathrm{A}, \mathrm{B}$, or C
b. Cards $=1$ (equal to 1 ) have a letter D
c. Cards $>1$ (more than 1 ) have a letter E, F, or G
2. Cards with the same letters are in the same group
3. Groups should be in order from A-G
